

App. No. 10/605,755

REMARKS - General

Applicant has re-written claims to address Examiner's Section 101 rejection and Examiner's Section 112 rejection.

Claims 2-4 and 11-18 have been cancelled to address the Section 102 rejection.

Applicant has address the 103 Section rejections by adding new limitation such as being sold by a broker which was not in the original claims and the referenced art of Lee (US 2002/0133446) or Milam (US 2002/0138385). This new limitations make the new claims novel and unique patentable over prior art. This new art is for a symbol that indicant if the seller or buyer has any special connection to the company.

Applicant has rewritten all claims to define the invention more particularly and distinctly so as to overcome the technical rejections and define the invention patentably over the prior art.

Conclusion

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

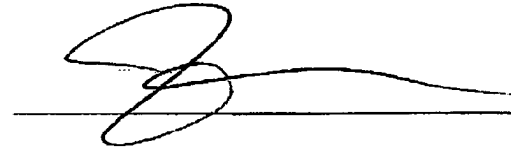

Respectfully submitted,
